

Change of inhaler brand from Fostair 200/6 pMDI to Proxor 200/6 pMDI

- Your Fostair 200/6 pMDI has been changed to the brand Proxor 200/6 pMDI.
- This inhaler works in the same way as Fostair and contains the same medication (extra fine beclomethasone and formoterol) at the same strength.
- The new device is white with a green cap.
- This new inhaler has a dose counter which counts down in 1s in the same way as Fostair does.
- You should use this inhaler in the same way as you have used Fostair.
- You should notice no difference in the management of your condition.

Your current inhaler looks like this:

Your new inhaler will look like this:
