

Tirzepatide for Weight Management in Primary Care

Training for South Yorkshire primary care teams

Hosted by NHS South Yorkshire ICB

Why attend?

- Initiate, titrate and monitor tirzepatide safely in primary care
- Recognise and manage adverse effects
- Support safe, consistent implementation of the pathway across practices and PCNs to reduce variation and improve patient safety

Session 1: Delivering the South Yorkshire Tirzepatide Local Enhanced Service (LES) for Weight Management: What Practices Need to Know

Session 2: Clinical Cases and Tirzepatide Prescribing Considerations

Focus

- LES aims & objectives
- Patient eligibility
- Primary care pathway
- Roles & responsibilities
- Coding & claiming
- Governance & safety reporting

Choose one:

Microsoft Teams: Wednesday 21 January 2026, 12.30 to 1.30 pm

Microsoft Teams: Thursday 29 January 2026, 12.00 to 1.00 pm

Speaker: Dr Rao Kolusu, NHS South Yorkshire ICB, GP Clinical Lead

Focus

- Mechanism of action & evidence base
- Clinical case scenarios (initiation to maintenance)
- Dosing, titration, and missed doses
- Monitoring requirements (bloods, weight, etc.)
- Managing adverse effects & safety concerns

Choose one:

Microsoft Teams: Wednesday 4 February 2026, 12.30 to 1.30 pm

Microsoft Teams: Thursday 19 February 2026, 12.30 to 1.30 pm

Speaker: Dr Elizabeth Uchegbu, NHS SYICB Clinical Lead Diabetes, Consultant Diabetologist
